

JUSTUS PETER

Computer Science Student | Aspiring Software Developer

0708020810 | justusmalombep@gmail.com | Kitui, Kenya

PROFESSIONAL PROFILE

I am a third-year Bachelor of Computer Science student at South Eastern Kenya University with a strong interest in software development, web development, databases, machine learning, and emerging technologies. I have practical experience developing software projects using Python, C++, JavaScript, HTML, CSS, Flask, MongoDB, and machine learning technologies.

I enjoy solving real-world problems through technology and continuously improving my programming and software development skills. I am a motivated learner interested in opportunities that allow me to gain practical experience, contribute to software development projects, and grow professionally.

EDUCATION

Bachelor of Computer Science

South Eastern Kenya University (SEKU)

School of Science and Computing

Expected Graduation: 2027

TECHNICAL SKILLS

- | | | |
|----------------------|-------------------------------|-----------------------|
| • Python Programming | • C++ Programming | • R Programming |
| • Rust Programming | • HTML | • CSS |
| • JavaScript | • Flask | • MongoDB |
| • Git and GitHub | • Pandas | • Scikit-learn |
| • Machine Learning | • Web Application Development | • Database Management |

PROJECTS

Student Loan System

Developed a web-based student loan application system using Flask, HTML, CSS, JavaScript, and MongoDB. The system allows students to submit loan applications and stores application information in a database.

Technologies: Python, Flask, HTML, CSS, JavaScript, MongoDB

Loan Approval Prediction System

Developed a machine learning-based application for predicting loan approval based on applicant information. The system uses Python and machine learning technologies and provides predictions through a web interface.

Technologies: Python, Pandas, Scikit-learn, Flask, Machine Learning

Academic System

Developed an academic system designed to support the management of academic information and processes.

Technologies: Programming and database technologies

Personal Portfolio Website

Developing a personal portfolio website to showcase technical skills, software projects, and professional profile.

Technologies: HTML, CSS, JavaScript, GitHub

INDUSTRIAL ATTACHMENT

ICT Attachment – NG-CDF Kitui West

May 2026 – July 2026

Gained practical experience in an ICT working environment, including computer support, software-related activities, data handling, troubleshooting, documentation, and general ICT operations.

The attachment provided an opportunity to apply knowledge gained through my Bachelor of Computer Science studies in a practical working environment.

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Time Management
- Adaptability
- Critical Thinking
- Willingness to Learn
- Attention to Detail

LANGUAGES

- English
- Kiswahili
